Due to the large amount of leased line and allocated circuits controlled by OC-SCD, a listing is required which shows terminal information, costs, circuitry data, and other pertinent facts. [] is such a listing. It is used as a ready reference and provides a current picture of our world-wide circuitry and the information needed to control our network. Also, it is a valuable tool in projecting lease costs and relates to that portion of the OC-SCD budget. It is the only listing maintained by OC-SCD.

Report was originated in 1963-4 by OC-SCD (formerly, OC-T).
